EDUCATION

2021 - 2021

DURBAN UNIVERSITY OF TECHNOLOGY

- Advanced diploma in ICT

2017 - 2020

DURBAN UNIVERSITY OF TECHNOLOGY

- Diploma in ICT

2021 - 2022

CAREERS IT

- Certificate in Systems support NQF 5

2016

HLOKOZI HIGH SCHOOL

- Matric

SKILLS

- Data Analysis: Data cleaning & validation, trend identification, pattern analysis
- Reporting & Visualization: Microsoft Excel (PivotTables, Charts, Formulas), Power BI (basic dashboards), Tableau (familiar)
- Database & SQL: Data extraction, relational database concepts, query writing (intermediate)
- Tools: Microsoft 365 Suite, Google Sheets, IT ticketing systems (data extraction), Power Automate
- Soft Skills: Problem-solving, attention to detail, cross-team collaboration, documentation, stakeholder communication (teachers & admin)

PROFILE

Detail-oriented IT Professional with an Advanced Diploma in ICT from Durban University of Technology (DUT) and hands-on experience as an IT Specialist in a primary school environment. Proven ability to collect, clean, and interpret operational data (hardware inventory, network logs, user support tickets) to drive efficiency. Adept at translating complex technical data into actionable insights for non-technical stakeholders. Seeking to leverage analytical mindset, database knowledge, and reporting skills into a Data Analyst role.

WORK EXPERIENCE

● Scottsville Primary School

2022 - PRESENT

IT Specialist

- Data Collection & Analysis: Collected and consolidated hardware inventory data across 150+ devices (laptops, tablets, projectors), identifying \$15k+ in underutilized assets and reducing redundant procurement by 22%.
- Data Cleaning & Validation: Cleaned and validated 5+ years of legacy network log and support ticket data, correcting inconsistencies and duplicate entries to establish a reliable baseline for performance tracking.
- Reporting & Dashboards: Developed monthly Excel dashboards for the School Governing Body (SGB) showing ticket resolution times, recurring IT issues by grade, and device failure rates – enabling data-driven budget decisions.
- Trend Identification: Analyzed helpdesk ticket patterns and identified a 40% spike in password-reset requests each January; created an automated onboarding data sheet that reduced first-week IT tickets by 30%.
- Collaboration: Worked with the principal and department heads to understand data needs (e.g., "Which classrooms have the most internet downtime?"), delivering filtered reports that prioritized infrastructure upgrades.
- Documentation & Reproducibility: Created a documented workflow for extracting, anonymizing, and reporting student device usage data (in compliance with school privacy policies).
- Automation: Automated weekly device health reports using Excel macros and email triggers, saving 5+ hours per month of manual data compilation.
